BOY BITES HIS TONGUE OFF

KILLED IN A QUARREL. Louisville, July 31.—At a sawmill at Pleasure Ridge park two of the mill hands engaged in a quarrel, and Hugh Vittore, eighteen, shot and killed Walter Shepherd. It escaped.

SHOT HIS SWEETHEART. Middleboro, July 31.—Wilson Hill, of Clay county, shot and killed Anna Jackson, aged 18, his sweetheart. It is claimed that the shooting was accidental.

BIT OFF TONGUE.

Howling Green, July 31.—Eight year old Willie Haynes fell from the roof, striking his chin and biting his tongue in two.

KILLED BY A RICK.

Hardystown, July 31.—Mark Hubbard, aged 17, was killed by being kicked by a horse.

MUSKET EXPLODED.

Hopkinsville, July 31.—John Denson, a prominent farmer, had his head blown off this morning by the explosion of his musket.

BOLTERS' CONVENTION

TION NEAR GOOD. Columbus, July 31.—The Bryan bolters state convention here today was a success, and there were not one hundred men present. They will, however, name a complete state ticket.

REVOLUTION THREAT.

ENED IN VENEZUELA. Washington, July 31.—Venezuelan advises that another revolution is imminent with the whole country threatening an uprising against President Castro.

CROPS DAMAGED.

CAPT. BOB OWEN FINDS MANY OF THEM IN BAD SHAPE.

Captain Bob Owen returned from St. Genevieve, Mo., last night, where he took 20 teams to work on a railroad being built out of that place. He closely observed the condition of crops from St. Genevieve down to this point. He says that the corn crop is a total loss and that few sections of the country that he passed through can save even half a crop. The wheat crop, however, was not much damaged and most of the farmers had it threshed and stored away. The potato crop and most of the fruit has been very badly damaged and the drought interfered with the work on the railroad very much. Several teams were overheated and the laborers found it necessary to lay down their tools in the evening when the heat was not so bad.

DECORATORS HERE.

THE COLOR SCHEME WILL BE STARTED AT ONCE AT THE KENTUCKY.

Decorator Hirsch, of Cincinnati and Mitchell, a decorator and an assistant have arrived in the city and will begin the color scheme at the Kentucky at once. In a few days several additional decorators will arrive, the present force being simply to begin the work.

INSPECTION TOMORROW.

Mayor Lang will call a meeting of the city council tomorrow morning at eight o'clock to go over to the intake pipe of the water company and inspect it. All citizens who desire are invited to accompany the council. The crowd will go over on the Brookhill. The inspection was deferred sometime ago on account of the stage of the river, which is now sufficiently low to permit the inspection.

WAS RELEASED.

A boy named Albert Atkins was arrested last night on a charge of taking two rings and \$2.25 from the clothing of four boys who were in a swimming down below the incline last evening. The court agreed to release him on condition that he return the rings, which he did, and there was no prosecution.

There are no new developments in the democratic county committee meeting. Nothing will probably be done until after the senatorial convention August 10.

NOT SETTLED

It is Announced That the Strike Will Not End For Some Time.

IS NOW ON IN EARNEST

Opening of Union Mills to Non-Union Men Said to be the Bone of Contention at Pittsburg.

GREAT DISAPPOINTMENT OVER IT

Pittsburg, July 31.—Disappointment and apprehension pervade Pittsburg because of the failure of the executive board of the Amalgamated Association of iron, steel and tin workers to ratify the peace proposals arranged at the conference in New York last Saturday, between the national officers of the Amalgamated Association and Messrs. Morgan, Schwab and Gary, representing the United States Steel corporation. After a session lasting from 9:30 a.m. until 6:30 p.m., the meeting adjourned without arriving at any conclusion so far as known, to meet again today.

The protracted session indicates that the board is not satisfied with the provisions of the compromise measure and unless some modifications are made their ratification is doubtful. The opening of union mills to non-

union workmen is the point which it is believed the board hesitates to accept and the long distance telephone between New York and Pittsburg was worked frequently to get modifications of this clause. The workmen hold that this would give the mill owners full opportunity of crushing the union without a strike by finding excuse to discharge union men and then fill their places with non-unionists.

Another rock of dissension is said to be the retention in their present jobs of the men who were known as the strike breakers at the various mills during the strike. It is said that these men have been promised the protection of the manufacturers in case of a settlement and that they will not concede their dismissal at the request of the organization.

The workmen hold that this would give the mill owners full opportunity of crushing the union without a strike by finding excuse to discharge union men and then fill their places with non-unionists.

The object and business of the company is to examine and abstract titles to land in the city or in the county and the company will begin business on the 5th of August.

Mr. W. F. Paxton has been elected president, H. H. Scott vice president, F. M. Fisher secretary and treasurer and E. H. Parmenter abstractor and attorney.

This is the first company to do this class of business ever organized in this city and will endeavor to meet with good success.

ANOTHER SNAKE STORY TOLD

Trainmaster Linton, of the Freeport, Ill., division of the Illinois Central, and Trainmaster Scheuing of the Louisville division, have exchanged positions, effective at once. Mr. John W. Hicks, of the city, son of "Daddy" Hicks, the flagman, has been appointed depot master at Louisville to succeed Mr. B. J. Brown, resigned.

Supt. H. U. Wallace, of Louisville, was in the city today.

Trainmaster T. A. Banks has returned from a trip over the Evansville district.

Mr. O. J. Travis, superintendent of bridges of the I. C. of Chicago, arrived in the city this morning and left today at noon for Cumberland river, where he will inspect some bridge work being done there.

The Officers Have Been Elected and the Promises of Success are Very Good.

Articles of incorporation of the McCracken county Abstract and Title company were filed this morning in the county court clerk's office. The following are the stockholders and the number of the 200 shares of the \$10,000 capital stock they hold.

A. O. Flaherty, 65, W. F. Paxton, 7, H. H. Scott, 4, E. H. Parmenter, 6, F. M. Fisher, 1, Joseph Friedman, 7, Loretta Tally, 7 and W. F. Katterjohn, 7.

The object and business of the company is to examine and abstract titles to land in the city or in the county and the company will begin business on the 5th of August.

92 TODAY.

THE WEATHER INDICATIONS NOT VERY PROMISING TODAY

The government thermometer registered 92 at 2 o'clock this afternoon. It will probably go a little higher.

The lowest registered today was 71 early this morning. The air is still dry notwithstanding the condition of the elements last night and the weather indications are for continued fair tonight and tomorrow.

Up to 8 o'clock yesterday morning very little rain was reported to the government and only four stations out of seventeen in the state reported rain. It looked very much like yesterday but the weather indications throw a damper on the hopes of the public.

—Miss Maggie Williams, who was born about one week ago by an accidental explosion of a lamp, was up yesterday and will be able to be out again in a few days.

Mr. J. E. Morgan, the well known Illinois Central freight engineer, was badly scalded Sunday morning while preparing to go out on his run. His fireman was wetting down the coal on the tank when the hose slipped off the connection at the base of the boiler and the boiling water was thrown over Mr. Morgan's right leg. He was badly scalded from the knee down but the burns are not of a serious nature. The was unable to go out on his run and will remain off duty for the next several days.

Mr. J. A. McCann, the Illinois Central engineer, went to Martinville, Ind., today at noon where he will undergo the mud bath treatment for the rheumatism. Mr. McCann has been troubled by rheumatism for some time and the disease has become so trophic that he found the above trip necessary.

Mr. Joe Bernheim, the engineer, left for Louisville today at noon on business.

TODAY'S TOBACCO SALES.

Today there have been the regular tobacco sales, but nothing can be reported with any degree of certainty until six p.m. this evening. The offerings and prices were about the same as usual.

MAY COMPEL

Mayor Lang Thinks the Telephone Company Should Have Franchise.

HAS NO RIGHT TO EXIST

The City Attorney, According to Reports, Coincides in the View—Touble Seems Imminent.

AFTER OTHER CORPORATIONS

There is evidently trouble brewing between the city and Cumberland Telephone company. Mayor Lang and City Attorney Lightfoot also incline to the opinion expressed by the mayor, and it is probable that the telephone company will be required to get a franchise, which would have to be advertised and sold to the highest bidder.

The telephone company, however, claims that it operates under a grant from the council made in 1880, and that it is unlimited. It will not doubt vigorously resist any effort to force it to get a franchise, and some lively litigation is promised.

LEG BROKEN.

MR. ELMUS KILE HURT WHILE ATTEMPTING TO STOP A RUNAWAY HORSE.

Mr. Elmus Kile, the well known blacksmith, of South Third street, met with a serious accident last evening. He attempted to stop a runaway horse near Adams and Fourth street and was knocked down and run over by the animal. The wheels passed over his lower limbs and badly fractured his left leg below the knee. Dr. Rivers was summoned and dressed the injury. Mr. Kile was a former employee of the Illinois Central and has many friends who will regret to learn of the accident.

DAILY THOUGHT.

"Perhaps one of the deepest problems we have to deal with is this—the economy of time—the holding of each day as a trust for God and the race."

A peculiar policy of the city administration is never to enact a law to prevent anything, but rather to wait until the thing is done and then have some way to punish it. This plan is followed in many things and is one of the secrets of the city's shortcomings. When the "drain pipe ordinance" was before the council a few nights ago, City Engineer Wilcox suggested that it be so amended as to prevent people from running garbage and filthy water into the gutters through the drain pipes. The proposed change, which would have been a good one, albeit one that would cause a great many people a serious inconvenience, for the gutter is the only place many ever think of running filthy water, was rejected because it was suggested that the proper way was to specify nothing about what was to be run into the gutters, but if people drained garbage into them, and there was any one not sufficiently need to it to complain, let them get a warrant for maintaining a nuisance, and leave it to the courts to settle. On the same principle there might as well be no fire limit law, but wait until a man puts up a flamo house where it would be a menace to the surrounding houses in case of fire, and then prosecute him. If the city council will not compel people to connect with the sewerage and now that as a conduit for filth, they ought at least to have enough regard for the health and safety of the multitude, to prevent their running filth into the gutter. But under this new ordinance people can run anything they choose into the gutter.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure.

The constitution of Kentucky, says the Louisville Commercial, provides that "not more than two counties shall be joined together to form a representative district," and yet the legislature in the act of May 3, 1893, establishing a representative district, indiscriminately put the three counties of Clay, Jackson and Owsley together to form the first representative district; the three counties of Breathitt, Lee and Magoffin to form the 2nd district; the four counties of Bell, Harlan, Leslie and Perry to form the 3rd district and the three counties of Knott, Floyd and Letcher to form the 9th district. The ratio of representation this year is 31:47. The population of the 7th legislative district, Clay, Jackson and Owsley, is 31,799. The population of the 9th district, Breathitt, Lee and Magoffin, is 34,816; the population of the 9th, composed of Bell, Harlan, Leslie and Perry, is 40,108, and the population of the 9th district, composed of Knott, Floyd and Letcher, is 35,428. Butler with 15,995, and Edmonson with 10,080 are in one district and Elliott, with 10,387, is put with Carter, with 20,228 to form another; while Jessamine, with 11,935, Larue, with 10,761, Meade, with 10,553, McLean, with 12,418, Woodford with 13,131, Anderson with 10,651 and Boone, with 11,170 each, constitute a separate district and each has a representative.

Mayor Lang may be right in his opinion of the new drain pipe ordinance. It seems, however, that the cost to property owners who were complaining that they had to pay such exorbitant prices to have drain pipes replaced by paving contractors, will now be much greater. Under the old law the contractors did not have to put back the pipe. Under the new, they are compelled to put it back free of charge, and of course, to meet the additional expense of taking up and putting down the pipes, they will likely pipe in for every twenty-five feet if they want to be sure of protection. If there doesn't happen to be a pipe where they have figured one, however, besides getting the benefit of the increase in the amount of the bill arising from such calculation, they are permitted to collect extra from the property owner. Mayor Lang seems to think that the contractors are making the complaint against the ordinance, but the contractor goes to be well pleased with it, and admit that it gives them a great advantage over the old way.

Long made a wise move. All statements given out now can in most instances be merely opinions based on honesty, and it were better to express no opinion at all. The whole subject will be well thrashed out in due time. Seley men who do not profess to think a fair trial will be accorded the Admiral, are injuring their cause by the expression of such doubts. Such men as they who will conduct the inquiry could not afford even were they so disposed, to withhold by any means, the justice that is due to all concerned.

The quotation in yesterday's Sun relative to the school superintendent's trouble in Knox county was inadvertently credited to the Lexington Leader, and should have been credited to the Herald. The Leader is one of the leading Republican papers in the state.

Lord Roberts, who "ended" the war in South Africa, is to receive half a million dollars for his services. A great many men would have done just well, if not a little better, for much less than that amount.

The Democratic county committee meeting was nearly as good as the Democratic county primary. But it will take a great deal of "treatment" to cure the "sore heads" between now and the election.

There may be some excuse for stealing pistols and razors, but for the man who steals a pair of trousers or clothing of any kind this kind of weather, there should be no excuse in Gilead.

Nearly \$800 has been donated for the Memphis Commercial Appeal's Schley serial. The paper announces that it will not be designed by the experts of the navy department.

The kindly spirit engendered by the Democratic harmony now existing in McCracken county will be heard from later on.

Can any man in Kentucky who gets on a little war occasionally be justly accused of "neglecting his duty"?

\$100 REWARD.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that fails to cure. Send for list of testimonials.

BY PRESIDING ELDER JOHN-
STON FOR THE DIS-
TRICT.

Rev. H. B. Johnston, presiding elder
of the Paducah District has planned
the following campaign throughout
the district in the interest of Chris-
tianity. He will be assisted by the
following able and talented speakers:
Rev. C. A. Waterfield, Lexington,
Tenn.; Rev. J. J. Thomas, Green-
field, Tenn., and Rev. H. C. John-
son, Memphis, Tenn., who have
agreed to spend ten days in the
lands of the Paducah district. They
will sing and speak and distribute
tracts wherever they go. These young
men are excellent singers and speakers.

You may expect a good service, where
ever they go. The people are most
cordially invited to attend. When the
services are in the day dinner will be
on the ground, and there will be ser-
vices in the afternoon.

THE RIVER NEWS

Observations taken at 7 a. m. River 4.6 feet on the gauge, a fall of 0.2 in last 24 hours. Wind east, a light breeze. Weather partly cloudy, cooler. Rainfall in last 24 hours, 0.18 inches. Temperature 70. Poll, Ob-serv.

The Joe Fowler from Evansville arrived and departed on return trip to day with good business in and out.

The J. N. White & Co. from Dover today and will likely on her next trip to Clarksville.

Col. Wm. Hite, president of the Louisville and Evansville Mail line steamers, will leave in a few days accompanied by his family on an extended European trip.

The Courier Journal of yesterday says: All steamboats in the future that will be repaired at the Elizabeth marine ways will have fins attached to their rudders. The towboat Tornado and a few others have them, and it has been demonstrated that steamboats thus equipped steer better. The fin is a flat piece of steel the length of the boat's rudders, and projects out about ten inches. It gives a steamboat greater resistance and the pilots say it makes their work lighter.

Prof. Marsh says: "August, a good month of storms, heavy rains and good water in the rivers."

The City of Memphis from St. Louis passed up the Tennessee river today with a big trip of excursionists and fair freight trip.

The Tennessee is due tomorrow evening from Tennessee river.

The new towboat William McClellan passed down yesterday for St. Louis. She stopped here about an hour.

Last night we were visited with another refreshing rainfall. May the good work be continued for a few days, not too much, but just enough.

The regular every day Dick Fowler steamed cable at 8:15 this morning bound for Cairo with a good trip both in freight and folks.

There is no doubt but there will be a large representation of the river fraternity in attendance this evening at the grand opening of the New Richmont House cafe. Fine lunch and good music. Free.

The J. N. Riehert has been churched for the excursion business at Peoria during the remainder of the year.

If the weather is favorable this evening the excursion given by the order of Red Men on steamer City of Golconda and barge will be largely attended as there has been 300 tickets sold.

The Bob Dudley leaves here this afternoon for Clarksville. She will not be able this trip to get through to Nashville and the H. W. Bottom is from Clarksville. She will lay up here and probably undergo some repairs preparatory to going out under charter to the Evansville and Paducah and Cairo Packet company should the water get sufficiently low for the company to need the services of lighter boats.

The snagboat Woodluff is slowly wending her way down the Ohio doing excellent service in the way of removing snags that are hazardous to navigation between Pittsburgh and Cincinnati. The Woodluff has extracted 921 tons of snags, 20 wrecks of steamers, wharves, coal boats, etc., and 917 cubic yards of rocks.

News Robinson had an attachment made against the Dick Clyde yesterday for \$20 claimed as due for wages. The case comes up today in Justice Barber's court.

The Henry Harley puts out for Tennessee river this afternoon at 5 o'clock. She is getting a good trip of freight, also a good register of passengers. Captain Jim Till in command and Eugene Robinson in the office.

Capt. Thomas Herndon leaves tomorrow for Chicago to join her aunt and take a trip west, going as far west as South Dakota. She will be absent the remainder of the summer.
